The use of the myelin membrane for the studies of membrane structure has many advantages over the use of other membranes. At this stage in our understanding of membrane components and their assembly, the relatively simple structure of myelin represents almost a model system.

membrane fusion current topics pdf Peripheral membrane proteins may interact with other proteins or directly with the lipid bilayer. In the latter case, they are then known as amphitropic proteins. Some proteins, such as G-proteins and certain protein kinases, interact with transmembrane proteins and the lipid bilayer simultaneously. Some ...
